Flos de Pinoso, Rosso

Producer	Flos de Pinoso
Vendor	Jenny & François Selections
Category	Wine - Still - Red
Grape variety	Monastrell
Region	Valencia, Spain
Appellation	Alicante
Features	Organic, Screw cap

Distributor's notes

Varietals: Monastrell

Vinification Method: The Flos de Pinoso red wine is elaborated with the Monastrell grape, grown in accordance with the rules of organic farming. Manual harvest in dry Mediterranean climate for optimum ripeness of the grapes. Temperature controlled fermentation at 22-26 oC in stainless steel tanks with continuous over-pumping to extract maximum intensity of color & aromas. Maceration-fermentation lasts from 2-3 weeks.

Tasting Note: Very brilliant ruby red with a purple rim boasting the youthfulness of the wine. Rich aromas of red forest fruits & whiffs of spices. The palate is well structured, powerful & balanced with notes of black fruits.

About the producer

La Bodega de Pinoso started producing wines from organic grapes in 1997, being one of the pioneer wineries in the region to do so. Today, more than 800 hectares of vineyards are certified by the Valencia Region Organic Agricultural Committee, which is 35% of the surface area, producing more than 1,500,000 liters of wine. The Bodega de Pinoso is the most important producer of wines from organic farming in the Valencia Region, & are considered one of the biggest producers on a national scale. To obtain organic wines La Bodega de Pinoso combines an exhaustive control of the vineyards with the most careful processes in winemaking. Treatments carried out at the vineyard are minimum, making for grapes of excellent quality, without pesticides or chemical residues. The vineyard uses organic fertilizer from local organic cattle farming to improve fertility of the soil. They minimize agricultural activity to maintain the structure of the soil. They believe in the maintenance of biodiversity leaving vegetation to grow spontaneously in order to serve as a reservation of auxiliary flora & fauna.

Certification: USDA Organic, & Valencia Organic Agricultural Committee.
