2Naturkinder, Kleine Wanderlust

Producer	2Naturkinder
Vendor	Jenny & François Selections
Category	Wine - Still - Red
Grape varieties	Regent, Dornfelder
Region	Bavaria, Germany
Feature	No sulfites added

Distributor's notes

Age of Vines: 15 years (Regent), 30 years (Dornfelder)

Yields: 50 hl/ha

Soil: Shell limestone

Varietals: Regent (80%), Dornfelder (20%)

Vinification Method: Grapes are hand harvested and for the regent the grapes are destemmed while the dornfelder is left in whole bunches. The regent is fermented on the skins for about 10 days and the dornfelder is fermented semi-carbonically, foot stomped once a day for about a week. The wine ferments in wooden tank for about 4 weeks without temperature control. The wine rests for about 5 more months in the same tank. The wine is not racked and is left on the full lees for the duration, until it is bottled unfined and unfiltered with zero addition of sulfur.
